Edgar Alexis Tavera Carbajal

WEB DEVELOPER

ABOUT ME

I am a Junior Java Developer with over two years of experience in developing and maintaining applications using Java 8+, the Spring Framework (Boot, Data, Security), and SQL. I have strong skills in Linux, JavaScript, HTML, CSS, Docker, Docker Compose, Azure, and AWS as deployment platforms for my applications. I also have experience working with databases such as Oracle and PostgreSQL, along with basic knowledge of Angular 16. My goal is to contribute to the growth of an innovative company where I can apply my technical expertise and continue growing professionally in a multicultural and dynamic environment.
WORK EXPERIENCE

2023 - Present
Redalyc - Intern
Maintenance and
development of solutions

EDUCATION

Computer Engineer
Universidad Autónoma del Estado de México
2019-2025
